

Special Order Aquarium Guide

All information in this guide is subject to change as prices can change and reprinting a new guide can be cumbersome. The pricing in this guide is accurate as of 10/1/2014

Additionally the lead times given presume that our supplier has these items in their warehouse. All items in the guide are normally warehoused items so under normal circumstances the lead times should be accurate.

Some items might be listed on a manufacturers website, but not listed in our aquarium guide. These tanks are not warehoused from our suppliers and may only available direct and may take 3+ months to acquire.

We have suppliers for both custom glass and acrylic aquariums, however it may take a few days to acquire pricing on custom items. Please direct custom tank inquiries to matt@crittercabana.com

Aqueon Classic Pine

These quality pine stands and canopies are constructed entirely of solid wood.

Each stand and canopy is stained and finished with a waterproofing sealer that will protect them from splashes and other water damage. Canopies are available with full length doors that allow easy access to the aquarium top. Each pine stand is 28 inches high.

Aquaplantarium, Closed Cabinet

Push Glass Window design allows for easy access to your aquarium, no canopies or lights to remove. Easy open with a simple push. Creates an unique pond like view plus provides an enclosed habitat with perfect humidity for optimum tropical plant growth. The 3D background & waterfall features create a relaxing natural environment. The ledges provide space for Tropical Plants, Amphibians, Mud Skippers, Frogs, Fiddler Crabs, Freshwater Shrimp.

Included Bio Box Filtration Technology contains terrestrial soil, lake sediment & organic matter with high volume of bacteria, minerals & trace elements for a natural thriving aquarium within days. No New Tank Syndrome, the Bio Box keeps soil in place to avoid floating particles or dust clouds. Plant roots grow through the gravel and into the sediment for optimum aquatic plant growth. A power-head pulls the water through the gravel where bacteria grows to break down waste products Low Maintenance No Filter Media or Cartridges to Buy

Color Options: Natural, Cherry, Oxford, Chocolate, or Custom

Approximate Lead Time: 3-5 weeks
